

Create, customize and access business forms on your mobile device.

Get it done faster with ProntoForms® from Bell.

Real-time access to information can radically change the way companies do business, respond to customers and gain a competitive edge. With ProntoForms from Bell, you can increase productivity and reduce costs.

Whether you need to automate field data collection or get the status of a delivery, ProntoForms can transform the way you do business – all through an easy-to-use web portal. This solution allows you to create, customize and access forms on your business's mobile devices. With this application your workers can save time on customer visits, meaning they can get more done – faster.

Increase speed, accuracy and visibility of your mobile workforce.

ProntoForms enhances the accuracy and speed of data reports from the field, improves business tracking and provides live reporting. This mobile application helps reduce operational costs by eliminating form printing, repeat data entry and unnecessary trips to the office. ProntoForms allows you to:

- Increase efficiencies and productivity and improve customer experience
- Monitor all field activities and data entries in real time via a web dashboard
- Increase ROI on mobile devices and applications
- Support “bring your own device” policy to allow end-user device choice

Features and benefits:

- Capture text, photos, signatures and barcodes
- Create custom forms with formulas, skip logic and prebuilt calculations
- Dispatch work orders to teams in the field
- View locations of job sites and work completed
- Export forms to PDF, CSV, DOCX, XML
- Push instant updates to email and social sites like Facebook® and Twitter™
- Automate workflow to and from the office and support employee-owned devices
- Supports iOS, Android™, BlackBerry®, WebOS, Windows Mobile™ Pro and Windows® Phone OS platforms
